- PHP, Laravel
- Mercado Pago (Gateway Payment)

Dedicated Software Developer with 3 years of experience in developing and maintaining web applications. Proficient in React, JavaScript, and UI/UX design principles. Strong advocate for clean and efficient code. Excited about working with a dynamic team to drive innovation and deliver exceptional user experiences.

Work History

2020-07 -
Current

Front End Developer

Web Export, Argentina

- Developed multiple e-commerce websites from client-approved mockups, employing advanced front-end coding with React and PHP framework.
- Led the successful implementation of Next.js, significantly enhancing site loading speeds and optimizing SEO performance to elevate overall user experience and site visibility.
- Established and managed a UI functional components library using React with TypeScript, validated with StoryBook. This allowed rapid and secure development of new UI for future projects.
- Collaborated closely with UX/UI designers to implement and enhance designs with Figma and Adobe Illustrator, resulting in a cohesive and visually appealing user interface.
- Executed debugging and troubleshooting for front end issues using browser devtools, ensuring optimal performance and a seamless user experience.
- Conducted code reviews and participated in refactoring efforts, introducing TDD practice, consistently maintaining high standards of code quality and project efficiency.

2021-07 -
2022-03

Full Stack Mentor

RollingCode School, Argentina

- Teaching Full Stack: HTML, CSS, JavaScript, React, Node.js (Express JS) and Mongo DB.
- Leading work teams with the aim of developing fully functional web sites subject to deadlines, demonstrated strong organizational and time management skills while managing multiple projects.
- Close research on new technology trends and innovation.
